Toiyabe Indian Health Project strives to promote cultural values and integration of indigenous healing to support overall wellbeing. This app provides access to opioid and substance use disorder screening, behavioral health and substance use recovery tools, an opportunity for community members to learn language and find resources within the community to support wellness. You will learn more about the healthcare services Toiyabe offers and will have the opportunity to make an appointment with a provider directly from the palm of your hand. Please seek the advice of a doctor before making any treatment decisions.
